UNCLE SAM AND GREATER AMERICA

In Lapland the bride and bridegroom remain with their parents for a year after marriage. This would be a severe limit on many people in this country.

WILL some of our anti Expansion friends please tell us how the United States could exchange for any sort of Government in the Philippines until the Islands had come into possession of this country by the ratification of the Peace Treaty with Spain?

The reason of AGONCILLO's flight from Washington in advance of the attack on Manila is explained by Major General ORTEGA, who reports that AGONCILLO called AQUINO to drive out the Americans before the reinforcements arrived. The beautiful AGONCILLO and the more beautiful AQUINO are afraid the Philippines will be placed under a government as despotic as ours; for our mind surely is to do the same. Americans would have been permitted to leave Washington. If he had pursued his traitorous plan in a liberty-loving land like Spain, he would have been garroted without trial.

The findings of the Commission appointed by the President to investigate the operations of the Bureaus in the War Department have been made public. The verdict is unanimous that the majority of the actions made out an irresponsible press, unreliable persons and General NELSON APPLETION MILES. Inefficiency, due to unavoidable unpreparedness, is the greatest sin of omission or commission of which the War Department is found guilty. Regarding General NELSON APPLETION MILES's charge that the food furnished the soldiers was unwholesome and impure, the Commission returns a verdict against General NELSON APPLETION MILES. Except in a few instances the Commission found that the referred beef was good and nutritious. The report is a complete vindication of the Administration from the charges made and an unanimous approval of the War department.

Next is what the mud roads of Mayes have cost each year for thirteen years past:

NEWS IN KENTUCKY.

JAILED FOR CONTEMPT.

Find One Dollar and Imprisoned One Hour for Refusing to Answer in the Taking of Depositions.

Louisville, Ky., Feb. 15.—George W. Hutchinson, of the Louisville Building and Loan association, was Tuesday fined \$1 and sent to jail for one hour for contempt. The fine and imprisonment were imposed by Notary and Steamerman Miller because Hutchinson refused to answer questions in the taking of some depositions. In deciding Hutchinson guilty of contempt Judge Miller also rendered a decision to the effect that any one with power to take a deposition has power to punish for contempt providing he is upheld by a superior judge.

Now Their Fertilized Mother Burnt.
RICHMOND, Ky., Feb. 15.—Mrs. George and Kindred, of Berea, who was partially paralyzed, met an awful death. She was sitting in an invalid chair in front of a fire when her clothing ignited, and she was burned to a crisp lying in great agony. Two of her children witnessed the accident, but were too small to render any help.

MIDWESTON, Ky., Feb. 15.—The news has been received in this city of the marriage of James Fugit, of Midwestern, a member of the 6th Indiana militia, with a woman who is an irresponsible press, unreliable persons and General NELSON APPLETION MILES. Inefficiency, due to unavoidable unpreparedness, is the greatest sin of omission or commission of which the War Department is found guilty. Regarding General NELSON APPLETION MILES's charge that the food furnished the soldiers was unwholesome and impure, the Commission returns a verdict against General NELSON APPLETION MILES.

Except in a few instances the Commission found that the referred beef was good and nutritious. The report is a complete vindication of the Administration from the charges made and an unanimous approval of the War department.

To SHORTEN HER NAME A BIT.

Miss Domincielly Yannuskiewicz is wed Adam Belazarski at Chicago.

TO MAKE MAINE SOUVENIRS.

ARMOR Plate from the Warship to Be Transformed at Spring Hill, III.

SPRINGFIELD, Ill., is on the eve of becoming the center of a new industry—the manufacture of battlefield memorials.

A term in New York has got hold of a name of the armor plates from the vessel destroyed in Havana harbor—say it has, anyhow. They will be shipped into Springfield soon, via New Orleans, to the Springfield Iron Works, and then the souvenir work will begin.

Belazarski will probably call her "Dom" for short, or, as this contains the suggestion of dominos, or master, he may choose rather to address her as "Cle," which holds a hint of Heaven in Latin tongues, and if a young bride is to be married, there is no better name than Cleopatra.

When the wedding takes place there will surely be trouble, if an English-speaking Justice undertakes to pronounce the names.

Domine Yannuskiewicz, etc., will sound more like a sun-mill in operation than the coining of the white doves of Venus.

The answer to Shakespeare's anxious query, "Is it in nature?" is in the case of Miss Domincielly Yannuskiewicz to be "the whole alphabet," speaking with appropriate correctness. Of course, a few characters are left out, but this is unavoidable and should not be considered to the prejudice.

Adam is 29 years old, according to the marriage license papers, and Miss Domincielly Yannuskiewicz is two years his junior. This is the ideal age for marriage, and both will probably be happy in spite of their names.

Canteen-Feeder Frozen.

PRINCETON, Ky., Feb. 15.—William Morris, the cattle-feeder at the Boone county distillery, was so badly frozen that he will be a cripple for life. He was found in an unconscious condition in the pens.

LEXINGTON, Ky., Feb. 15.—Representative South Trimble, of this city, was received Tuesday of the death of Dr. Joseph L. LaFountain, of Rock Creek. He was visiting his patients Sunday night, and was over come by the severe cold and died.

A STATUE OF LONGFELLOW.

AN ASSOCIATION PURPOSES to Erect a Suitable Memorial in the National Capital.

The executive committee of the Longfellow National Memorial Association, formed for the purpose of erecting a statue of the poet in Washington, issued an appeal to the public for subscriptions.

The committee estimates that \$35,000 will be needed to procure a statue worthy of the poet and the site.

The smallest contributions will be welcome. Almost every American boy and girl, and every member of the press, says the appeal, contains a copy of Longfellow's poems, it is hoped that the response may be both prompt and generous.

The Riga national bank of Washington has consented to act as financial agent for the local association, and checks may be made payable to it.

President McKinley is an honorary regent of the association, Chief Justice

THE GREAT STORM

It Practically Disappeared Off the Northeast Coast of Canada Tuesday.

NEW SNOW AND WIND RECORD MADE.

Low Area Is Evidently Developing Off the Texas Coast and Rains Are Therefore Indicated.

Light Snow in the Upper Lake Region and Light Rain or Snow in the Central Mississippi Valley Are Indicated—Warmer Weather.

WASHINGTON, Feb. 15.—The great storm has practically disappeared off the northwest Canadian coast, after a combination of snow and high winds that must hereafter stand as a record for almost the entire Atlantic coast region.

Clear weather was general Tuesday night except in the upper lake region and upper Mississippi valley, where snows and rains are falling, and in the southern portion of the west gulf states, where it is also raining, in addition there were light snows during Monday night in the upper Mississippi valley, Wisconsin and Minnesota.

With the exception of a few inches of rain in the upper lake region, the eastern slopes of the northern slope, there has been a general and decided rise in the temperatures and they are once more above the freezing point west of the Mississippi river, in Florida and in the Gulf states, except Northeast Alabama. They still continue comparatively low in the Atlantic states.

In the plateau region and on the Pacific coast there has been little or no change except that the rains on the extreme west have continued to fall southward into Northern California.

A low area is evidently developing off the Texas coast and rains are therefore indicated in southern portion of Gulf states.

There will also be light snows in the upper lake regions and light rain or snow in the central Mississippi valley. Generally fair weather will prevail elsewhere east of the Rocky mountains. The temperatures will continue comparatively high west of the Mississippi river and rise generally to eastward.

FLORIDA ORANGES

The Damage By the Cold Wave Is Believed To Have Been Widespread.

THE WORST BLIZZARD EVER KNOWN.

All the Fruit and Vegetables in the Vicinity of Jacksonville Was Killed Monday Night.

ATLANTA, Ga., Feb. 15.—Telegraphic communication to Florida has been kept up spasmodically only the past two days, all wires being down south of Jacksonville, Fla. While no prediction has been made as to Gen. Miller's ability to capture the capital of the Visayan federation, or for that matter anything else that was wanted in the archipelago, the reports of strong intrenchments around the town led the department to fear that the landing would be a bloodbath rather than either of the battles of Manila. It was with great satisfaction, therefore, that Adam, Dewey's dispatches informed us that we had lost no man at all and that the casualties among the natives were much smaller than at first reported.

The real mark was reached at Pensacola Monday and Tuesday at noon the moderation has amounted to only 18 degrees. At De Fuquias sprang it was 8 above at noon Tuesday. All communication east and south of the point of land is now cut off and it is impossible to learn the exact damage done to fruit and vegetables.

All the telegrams from Florida are sent from this city to Savannah, at which point they are sent by train to the south. Savannah Tuesday received word from Jacksonville by train that the whole state of Florida was suffering the worst blizzard ever known. Its consequences can not be ascertained for 24 hours, but the damage to oranges is believed to have been greater than to any other fruit. The blizzard last week before this blizzard came, everything in the way of fruit and vegetables in the vicinity of Jacksonville was killed Monday night, and if the weather man's predictions for Monday night come true, the loss to pineapples and oranges in the southern part of the state is enormous.

In Atlanta the cold wave has passed and the temperature shows a rise of nearly five degrees from the severe cold of late, and moderate weather continues to come from various remote points and tell of unusual temperatures and great suffering. Throughout Georgia the early vegetables have been killed and the peach crop and other fruits almost entirely destroyed.

HALLIBURTON, N. S., Feb. 15.—J. Luna, a member of the Filipino junta, arrived Tuesday from New York to take passage for England on the steamer Numidian, now due from St. John. When seen the dispatch regarding Gen. Rio de Díos' arrival at San Francisco he refused to say what the Filipinos would do, whether to seek peace or continue hostilities.

Luna said that the war would go on while Americans remained in the Philippines. The natives wanted nothing to do with either the Americans or Spaniards.

"That by the ratification of the treaty of peace with Spain it is not intended to incorporate the inhabitants

of the Philippines into citizenship of the United States, nor is it intended to permanently annex said islands as an integral part of the territory of the United States; but it is the intention of said islands a government suitable to the wants and conditions of the inhabitants of said islands to prepare them for local self-government and in this regard to make such disposition of said islands as will best promote the interests of the citizens of the United States and the inhabitants of said islands."

When President Monaghan, of the Wisconsin Milk company, Chicago, wants any sign painter done here, he is going to write the name of the sign painter on the back of the workmen's clothes to see that they "follow copy" literally. There was a time when Mr. Monaghan thought a sign-painter could be trusted with a job without hampering him with explicit instructions, but what was his recent annoying experience. Soon after the company had moved into its big West side plant President Monaghan sent for a painter, and gave him an order to cover the entire sides of the building with signs. "How long will it stay on 'em?" queried the painter.

"It doesn't matter much," replied President Monaghan, "so long as the lettering is big and bold. I should think something like 'Wisconsin Milk Company, Dealers in Pure Milk' would be about right, but I'm not particular, so long as it is attractive."

Mr. Monaghan had business among his customers in the country, and was away for a week. When he returned, he found the painter had covered without "instructions" sign—so attractive, in fact, that all the neighboring firms were giggling about it, the street was jammed with the teams of draymen who stopped to laugh over it, and some of Monaghan's own men had photographed it, taking pictures to circulate among consumers of dairy products. The sign read:

"WISCONSIN MILK COMPANY,
MANUFACTURERS OF
PURE MILK AND CREAM."

Twenty minutes later a crestfallen painter was at work striking out the word "manufacturers," while the late President Monaghan watched the job from the sidewalk, and made burning comments on the idocy of sign painters in general, and one in particular.

The four great railroad systems in New England are rapidly shaking off the paralysis to train service caused by the snow. Suburban traffic is well maintained and followed schedules Wednesday, while long distance trains are getting through.

The storm condition in the vicinity of Trenton, N. J., has abated, and trains between New York and Philadelphia are beginning to get through, but irregularly and with difficulty, and the roads are still closed.
